

ARE YOUR PRESCRIPTION MEDICINES COVERED BY YOUR HEALTH PLAN?

IF YOU USE A NON-COVERED DRUG, YOU MAY PAY THE FULL PRICE.

Talk to your doctor about switching to one of the alternative drugs listed on the formulary.

SOURCERX IS YOUR FORMULARY — A LIST OF COVERED DRUGS

Prime Therapeutics (Prime) is trusted by your employer or health plan to help you get the medicine you need to feel better and live well. Our pharmacy experts work hard to make medicine more affordable for everyone.

SourceRx is the list of drugs covered by your health plan. It was designed to push back against today's high costs for medicine. SourceRx works by offering alternatives to more expensive drugs. This helps people get the right medicine at the best cost.

SOME DRUGS WILL NOT BE LISTED ON THE SOURCERX FORMULARY

If a drug is not on the formulary, it will not be covered by your health plan. This publication lists many of the non-covered drugs along with alternative drugs that are covered. The list is divided into four sections:

1 Non-covered with preferred alternatives

Alternatives to non-covered drugs — potential options at better costs.

2 Standard non-covered drugs

Lists reasons why these drugs are not covered.

Additionally, some health plans or groups may choose not to cover drugs for the following reasons:

3 Non-covered with over-the-counter alternatives

For prescription drugs that have an effective medicine available from your pharmacy.

4 Non-covered due to high costs

Safe, effective alternatives are available at lower costs.

The formulary guide represents changes (non-covered and covered alternatives) that may not be effective until January 1, 2022. The formulary is reviewed quarterly and changes are made to ensure clinical appropriateness of the formulary while giving members access to lower cost alternatives. Notifications are sent out each quarter to affected members of new non-covered drugs.

2 Standard non-covered drugs

OTHER STANDARD NON-COVERED DRUGS STRATEGIES

RATIONALE

Brand drug, when generic equivalent is available
(e.g., ACTOS, ABSORICA, ADDERALL XR, COPAXONE, CRESTOR, EXJADE, GLEEVEC, JADENU, NEXIUM, TRUVADA, ZYTIGA)

Brand name medications are not covered when a generic equivalent product is available. Please talk to your doctor or pharmacist about a generic version of your medication.

Bulk powders
(e.g., testosterone powder)

Compound drugs are prepared by mixing ingredients together to create an individualized medication for a specific patient. A common ingredient in compounds are bulk powders. Bulk powders are not approved by the Food and Drug Administration (FDA). Drugs marketed without required FDA approval may not meet standards for safety, effectiveness and quality. Therefore, bulk powders are not covered under your drug benefit. Please talk to your doctor or pharmacist about FDA-approved drugs available for your condition.

Drugs deemed not safe and/or effective
(e.g., carisoprodol, meprobamate)

These medications have been determined not safe or not effective by Prime's Pharmacy and Therapeutics Committee. Please talk to your doctor or pharmacist about other medications available for your condition.

General exclusions
(e.g. GEL-ONE, SOLIRIS, SYNVISIC, VYEPTI)

These products are no longer covered under your drug benefit. These products may not be covered because they are not appropriate for retail use, used for cosmetic purposes, not available as a prescription, or require healthcare administration. However, these products may be available over-the-counter or through your medical benefit. Please talk to your doctor or pharmacist about other medications available for your condition.

Institutional packs

These medications are no longer covered through your drug benefit because they are packaged for use or redistribution by an institution (e.g., hospital). Institutional packs are not intended for use or sale outside of an institution. Please talk to your doctor or pharmacist about a version of your medication that is packaged for use outside of an institution.

Non-FDA approved medications

These medications are no longer covered under your drug benefit because they are not approved as a drug by the Food and Drug Administration (FDA). Medications marketed without required FDA approval may not meet standards for safety, effectiveness and quality. Please talk to your doctor or pharmacist about FDA-approved medications available for your condition.

Repackaged medications

Repackaged products are not covered. Please talk to your pharmacist about a version of your medication that is not repackaged.
